INTRODUCTORY PRICING

RIM CLAMP TIRE CHANGER #5040 A/E \$3,098

The Coats model 5040 A/E Rim Clamp Tire Changer lets you handle wheels up to 21" while providing total rim protection at every step of the process. The high-torque, X-shaped tabletop provides the smooth operation needed to protect rims and to work efficiently. You have complete, highly effective control over every step of the process. A powerful bead loosener features three support blocks and a sculpted blade to loosen even the most stubborn tires.

40 DRUM / DISC LATHE #4000B \$5,234

Since its introduction 4 decades ago, the Ammco Model 4000B has been a favorite of brake technicians everywhere ... it's simple, it's fast, it's very precise, and it almost never breaks down!

- ♦ Modification from drum to rotor machining takes less than 30 seconds.
- ♦ Supports Drums and Rotors up to 100 lbs. using the standard arbor.
- ♦ Convenient "quick change" pulleys & infinitely adjustable spindle-free gear box.
- ♦ Features three spindle speeds offering smooth, fine or super-fine finishes.

See AL's for all your Brake Lathe Bits, Boots and Bands. PRICE GOOD THROUGH JUNE 30, 2006
